The football boys with their friends are removing the hay belonging to Brackman-Ker people, the said hay being piled on the grounds which have been used for some years for all games. The B-K people have promised to bear part of the expense and the boys will pay the other part, teams and drays having to be hired.

"La Mascot" will be the play which the Beggar Prince Opera Co. will put on at the Didsbury Opera House tomorrow night. ### A Warm Time.

Monday night the Council met, and to say the least a strenuous three hours and a half was put in by the town daddies in an effort to conduct the business of the town, the flow of eloquence yea and nay on some of the questions before the House would have put to shame our leading lights of the legislatures. The opening of the blind line though the town, was the biggest bone of contention and which caused a smile to ripple over the countenances of the interested spectators present.

The line up was as follows:—

Mayor Sessmith in the chair supported by Councillors Atkins, Shantz, Hembling, Liesemer, Berscht, Smith, Solicitor Macleod and Clerk Eby. The Fire, Water and Light Committee reported that they are making enquiries as to best means of fire protection.

The Civic Works Committee are to bring in a report at next meeting as to the best means of taking care of the ashes which are a menace to the safety of the town.

The finance Committee brought in a report stating the financial situation of the town and it was found that the same is a little over three thousand dollars in debt.

The Civic Works Committee also presented their report, which was taken up clause by clause, and after deciding to put down some sidewalk from the west side of Railway street to the east over the railroad track into Lackerville and a few other places, it was found that the financial conditions of the town did not warrant the expense of all this money, unless the tax rate was increased over last year. The Council were not in favor of doing this and so after spending an hour or two discussing this matter, they thought the best way would be to issue debentures for improvements and let everybody have a share.

It was decided that the residents of Lackerville must have some sidewalk put down, but as the Council has no legal right to do so on any of the streets leading out that part of the town that steps be taken by the Solicitor at once to expropriate such land as was needed for this purpose.

Councillor Liesemer gave notice of motion to make a by-law to issue debentures for grading and sidewalks.

The road to the cemetery is to be graded and filled in at once.

Councillor Hembling then presented a petition signed by 54 ratepayers praying the Council to open the blind line through the town limits.

This is where the fun commenced and for half an hour the question as to whether the farmers northeast and northwest of town had good access to town or not was discussed in all its bearings. C. Hielbert, being present, requested the permission of the Council to speak on the subject which was granted. Mr. Hielbert very forcibly gave good reasons why this line should be opened, stating that the town practically got incorporation for the purpose of having the power to open up approaches to the town, and the town had taken no steps in this direction to give these farmers better approaches to the town. This closed the debate.

Councillor Atkins moved, seconded by Councillor Hembling that a by-law to raise the money necessary for opening the blind line be placed before the ratepayers.

Yeas—Councillors Atkins, Hembling, Smith, Nays—Councillors Shantz, Liesemer, Berscht. It being a tie vote, the Mayor cast his vote in favor of having a by-law drawn up. This closed the discussion.

Councillor Berscht reported that the B-K Elevator Co. were going to enclose their hay to protect it from fire. The Council adjourned at 11.30 p.m.

The C.P.R. are going to make Red Deer a divisional point, and will spend about \$150,000 for divisional and terminal facilities.

The Board of Trade met in Secretary Macleod's office on Saturday night last to consider better mail service for the east country and also to make arrangements for exhibiting at the Dominion Fair at Calgary. All members were present and H. Metcalf was also present to give the Board some idea as to the present mail delivery and also to make suggestions for bettering the same. It was decided by the Board that this matter should be taken up at once and petitions are to be circulated through the country that will be benefited to assist the Board in its work.

Some discussion took place as to whether it would be advisable to get out a pamphlet descriptive of Didsbury and district, or only a folder for distribution at the Fair. The matter was finally left in the hands of a committee composed of J. A. Findy and H. E. Osmond to bring in a report on the matter.

Several other items were taken up and discussed, and action taken relative to the business in hand.

**Trochu Valley.**

April 27th—Having had a lovely week, with a hot sun and a cold wind as we are now experiencing, is felt very much. The sun last week registered on the maximum thermometer a temperature of 90° F on one occasion, and as high as 100° F on another. This latter reading was taken at 10 o'clock in the morning. We had a couple of very welcome heavy showers early in the week, but not sufficient to produce any marked change in the color of the prairie.

Dr. Sculler and Mr. Crepin have spent a week in Calgary.

The White Horse Hotel will have its foundation laid this week.

Mr. Jackson spent a week in Calgary attending to business re the Trochu Valley Sports Club, which club is now flourishing. A rifle range, for ranges up to 600 yds. is to be constructed shortly, and Mr. Jackson has made arrangements with the D.A.A.C. at Calgary for the formation of a rifle association, all members of the club will be members of the Association.

A brass band has been started in the town to be designated the Trochu Valley Town Brass Band. Mr. O'Well (late bandmaster 14th Hussars) is the bandmaster, and we wish the band every success.

Mass was held at the Church yesterday, there was a large attendance.

Court is sitting this afternoon at the barracks under Justice Sculler.

\$50,000 is the sum that the C.P.R. intend expending on the C. & E. line this year on improvements.

## Kansas.

Dear Sir,—In answer to "and St. Kansas." I am not mistaken at all, this has been, and is, and always will be a stock country, and more so combined with farming. There are a lot of people come to Alberta with very full intentions, but I may say there is a serious blight falls on a lot of them. I forget, but I think he said something about sucking a sow. I suppose he means when he gets frozen out. The anti-Herders don't want to pasture his crops or grass. It is a pretty bad country that cannot grow crops good enough to pay for a decent fence around them, especially no farther from the bush than Kansas.—W.E.

## ADVICE TO WOMEN.

How One May Grow Old Attractively and Gracefully.

Growing old is not a condition to be dreaded. Youth is delightful and full of zest, but that is no reason why its loss should be lamented. A woman who wishes may gain attractiveness with each year she lives and at thirty be far prettier, more delightful and entertaining than at twenty. This is the working of the eternal law of averages that never fails if one will only put it into operation. Only one must understand the situation and the law and abide by it accordingly, remembering that there is no gain without loss and that to achieve one must work.

To grow old gracefully is an art, and to step into middle age successfully is a triumph. It is women who do this of whom one hears often say she is "better looking than when she was a girl" or "never so much liked then when she was young." Every woman may be this by developing attractions which a girl can never have.

The original mistake that many women make is they feel their youth going is to fall to bring out the next set of attractions. Mere youth is pleasing, and because of it much is overlooked or ignored. "She is a pretty girl," some one says and forgives the evidences of bad temper.

But they will admire more a woman of middle age who has learned to control her temper and to show sweetness and self control when youth would fly into a rage.

A middle aged woman who has learned of life as she has gone on is infinitely more attractive than a girl. The former has gained sweetness and strength in trial. She is more entertaining, has more tact, more knowledge of how to please. When a girl pleases it is simply in the fact that she is a girl. But with this same power in an older woman there is knowledge before which a girl fades into oblivion. The adventures in a play is never a girl. She is always a woman past thirty years of age. She must have age to be clever, but the mental ability which a woman of that type turns to bad purposes may in one who is honest and well bred be used for the best ends.

For one thing, she makes herself helpful and particular. A certain carelessness in dressing that in a girl might be picturesque in a middle aged woman is slovenliness, and one who wishes to look and be her best will not wear to it. It is a mistake to think that because one's hair is turning gray how it is done up doesn't matter. It matters a great deal, and even a few strands must be taken to arrange it well and becomingly. To try to wear the same style frock as youth does is ridiculous and unbecoming. Gowns suited to the middle aged age will not make one look older. They simply harmonize and do not by extreme contrast call attention to the fact that a woman is not a girl. Little airs and graces of manner that were pretty in the girl are elephantine in the woman. Instead of these there should be a sweet dignity of manner that will charm all.

There is absolutely no need to dread advanced age if only one will advance with them in dress, habits and customs. One's friends are getting along also, and all keep on together.

But every one, and especially a woman, should grow old attractively and not carelessly. To be too particular about the neatness and detail of one's clothes, that they shall be perfectly put together and becoming, is impossible. Too many women are careless about this, and it makes them look older. On the other hand, there is nothing prettier in the world than a sweet and dainty old lady, and if her character and mind are sweet as well she has more friends and deeper admiration than ever fall to the lot of a girl.

## Bowdoin College.

Bowdoin college pronounced Bowdoin was founded at Brunswick, Me., in 1794. It was named in honor of James Bowdoin, an American statesman in high standing, who died in 1790. His son, James Bowdoin, a gentleman of wealth, who later served in diplomatic circles, being United States minister to Spain, 1805-08, gave to the college at its founding 1,000 acres of land and \$50,000 in money. At his death in 1811 he bequeathed to the institution a number of valuable gifts—4,000 acres of land, a library of several thousand books, a collection of fine paintings and an assortment of scientific apparatus. This institution, where the first Longfellow taught for five years, has preserved its high standing from the first.

## The Pacific Balance.

We do not consider the transfer of the maritime forces of the United States from the Atlantic to the Pacific either a challenge or a menace. The American giant, strong and self contained, disdains such threats. The concentration of a powerful fleet in the Pacific will only serve to re-establish the balance of power in the waters of the great ocean, which was disturbed by the unexpectedly rapid rise of Japan—St. Petersburg Novoye Vremya.

## THE PIONEER'S CROP

Flaxseed Most Suitable for Sowing on Newly Broken Prairie Land

Flax has peculiar claims to the title of "The Pioneer's Crop." It is the most suitable of all crops for sowing at first breaking of the prairie sod. Where flax is sown on first breaking a seed bed is communitatively free from weeds is provided, the farmer derives a revenue from his land the first year, and the crop effectually rotates the soil so as to admit of ploughing to the ordinary depth in the autumn. Then it can be sown later than any of the other cereal crops because it matures more quickly, and the new settler, taking up land in the early spring, may not be able to prepare his land for a wheat crop in time for seeding. Farmers who have only a portion of their land ready in time for sowing wheat, barley and oats, may sow the flaxseed after the other crops are in. Indeed it is better not to sow the flaxseed too early as the flax plant is tender in the spring and easily injured by frost, but it is far less liable to injury from this cause in autumn. The best results are said to be obtained in the Canadian West by sowing from the 15th to the 25th of May although good results have been obtained from seed sown as late as the middle of June and even later.

When the spring was very late and the growing season short so that the wheat crop suffered quite severely in many sections of the Canadian West, but there was a remarkable increase in the flax crop. In the province of Saskatchewan, where most of the flax raised in the Canadian West is grown, the yield in 1907 was 27,716 bushels of flaxseed as compared with 710,659 bushels in the year 1908. In Alberta the yield in 1907 was 19,074 bushels of flaxseed as compared with 35,491 bushels in 1908. In Manitoba the crop of flaxseed was 317,347 bushels in 1907 compared with 274,339 bushels in 1908.

The increased yield of flaxseed was not due to the fact that it was sown too late or sown too early. While flaxseed is pre-eminently the pioneer crop, it will pay the old settler also to reserve a portion of their land for this crop every year, as it has to have a proper rotation of crops.

In the Northwestern States it is common to grow flax after wheat or oats, but no regular system of rotation is followed as a rule.

Many farmers in the Northwestern States have made the mistake of growing flax on the same soil year after year without rotation of crops. Canadian farmers should avoid this mistake.

## CHILDHOOD INDIGESTION MEANS SICKLY BABIES

The baby who suffers from indigestion is simply starting to death. It loses all desire for food and the little it does take does it no good; the child is peevish, cries for no reason, and the mother feels worn out in caring for it. Baby's Own Tablets always cure indigestion and make the child sleep peacefully and naturally. Mrs. Geo. Howell, Stanley Beach, Que., says: "My baby suffered from indigestion, colic and vomiting and cried day and night, but after giving him Baby's Own Tablets the trouble disappeared and he is now a healthy child." The Tablets will cure all the minor ailments of infants and will advance them in their dress, habits and customs. One's friends are getting along also, and all keep on together.

An amusing story is told about a prisoner who was charged with robbing the other day at Bow Street Police Court.

On his way to the police station he became quite confidential with his captor, and remarked:

"There is one thing I am sorry for."

"What is that?" said his captor, expecting to hear a confession.

"I had my hair cut last night," said the prisoner, in a dejected tone. "It might have saved that quarter. It's my luck."—T.R. Bits.

"If you don't mind, dear," the husband exclaimed, as he visibly brightened and cheered for his lot, "I'll go with you!"—Harper's Magazine.

## What's Time to Hest?

A Northern riding through the West Virginia mountains came up with a mountaineer leisurely driving a herd of pigs.

"Where are you driving the pigs to?" asked the rider.

"Out to pasture 'em a bit."

"What pasture 'em?"

"Isn't it pretty slow work to fatten 'em on grass? Up where I come from we put them up and feed them corn."

"Gosh, I 'spose so," drawled the mountaineer.

"But, Sir, what's time to a hawg?"—Everybody's Magazine.

## Reforming Her Vocabulary.

A young woman of Quaker descent, according to the New York Sun, is now making an attempt to eliminate from her vocabulary the forms of "which peculiar to that sect." "All my life," she said, "I have used my 'thees' and 'thous' as my father and mother and my grandfathers and grandmothers did before me. I was accustomed to those expressions that it never occurred to me that there could be any disadvantage in their peculiarly. But when I went to work in a dr.' goods store I was disillusioned. I found then that Quaker speech, especially behind the counter, makes a mark of the speaker. I was told I met other clerks with every imaginable kind of a foreign accent, but nobody pays any attention to them. It is only I—poor I—with my Quaker phrase and those that catches the ear of the multitude.

"Why, you use the Cackler dialect, don't you? How funny," said one person after another, with suddenly aroused interest.

"This curiosity concerning me and my 'thees' has become very annoying, and I am trying to stick to straight English."
